

## Customer Journey Map

|                      |                 |
|----------------------|-----------------|
| <b>Date</b>          | 27 June 2026    |
| <b>Team ID</b>       | [Enter Team ID] |
| <b>Project Name</b>  | HDI Predictor   |
| <b>Maximum Marks</b> | 2 Marks         |

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

| Phase of Journey                                                     | Stage 1                                                                                                                                                         | Stage 2                                                                                                                                           | Stage 3                                                                                                                                                            |
|----------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Actions</b><br>What does the customer do?                         | <ul style="list-style-type: none"> <li>User visits the landing page of the HDI Predictor.</li> <li>Reviews model metrics and data summaries.</li> </ul>         | <ul style="list-style-type: none"> <li>User inputs 7 indicators (health, schooling, GNI, gender, environmental footprint) and submits.</li> </ul> | <ul style="list-style-type: none"> <li>User reads predicted score, tier, features overview, and explores plots.</li> </ul>                                         |
| <b>Touchpoint</b><br>What part of the service do they interact with? | <ul style="list-style-type: none"> <li>Web UI (Landing Page, navbar, metrics cards).</li> </ul>                                                                 | <ul style="list-style-type: none"> <li>Web UI (Form fields: Life Expectancy, schooling, GNI, GDI, GII, CO2).</li> </ul>                           | <ul style="list-style-type: none"> <li>Web UI (Results page, interpretation cards, plots).</li> </ul>                                                              |
| <b>Customer Thought</b><br>What is the customer thinking?            | <ul style="list-style-type: none"> <li>"The design is very clean and the model metrics are visible. Let's try predicting a custom country scenario."</li> </ul> | <ul style="list-style-type: none"> <li>"Are the inputs validated? What if I enter a negative value?"</li> </ul>                                   | <ul style="list-style-type: none"> <li>"Ah, a predicted score of 0.85 indicates a Very High development tier. The model info card is very informative!"</li> </ul> |
| <b>Customer Feeling</b><br>What is the customer feeling?             | Curious and impressed by the modern dark/light glassmorphic UI.                                                                                                 | Confident due to clear input constraints and labels.                                                                                              | Empowered by instant feedback and comparative visual graphs.                                                                                                       |
| <b>Process Ownership</b><br>Who is in the lead on this?              | Hari Charan Emandi                                                                                                                                              | Hari Charan Emandi                                                                                                                                | Hari Charan Emandi                                                                                                                                                 |
| <b>Opportunities</b><br>How can we improve this stage?               | <ul style="list-style-type: none"> <li>Show dataset details and descriptions dynamically.</li> </ul>                                                            | <ul style="list-style-type: none"> <li>Add range sliders alongside input text boxes for easier adjustments.</li> </ul>                            | <ul style="list-style-type: none"> <li>Add interactive charts showing historical trends of selected countries.</li> </ul>                                          |
